

# Acme Corp - Q3 Business Report

## Executive Summary

Acme Corp closed Q3 with \$4.2M in revenue, up 28% quarter-over-quarter. Net revenue retention reached 118%. We added 47 new enterprise logos and reduced churn to 3.1%.

## Revenue Breakdown

Subscription revenue was \$3.6M (86%), professional services \$0.4M (10%), and usage overages \$0.2M (4%). The EMEA region grew fastest at 41% QoQ.

## Product Milestones

Launched the multi-model AI assistant, shipped SSO for enterprise customers, and reduced average query latency by 35%. The mobile app entered public beta with 2,300 testers.

## Key Metrics

Monthly active users: 58,400. Average revenue per account: \$18,200. Gross margin: 79%. Support CSAT: 94%. P1 incidents this quarter: 2, both resolved within SLA.

## Outlook for Q4

We are targeting \$5.4M in revenue, general availability of the mobile app, and expansion into the Asia-Pacific region. Hiring plan adds 12 engineers and 6 account executives.
